# Associate Degree in Psychology

The Cyryx College Associate Degree of Psychology provides students with the key knowledge and competencies required to expedite careers in a wide variety of areas.

Psychology is the study of people: who we are, how we think and feel, and why we do what we do. In addition, this programme will provide the basis for further development of the student into specialist areas in the field of psychology.

Students gain new perspectives on social awareness and responsibility, civic engagement, cross-cultural competence, and evidence-based decision-making that can help them go further and make a difference in the lives of others.
