

**MASTER OF BUSINESS ADMINISTRATION
IN INFORMATION TECHNOLOGY (MBA IT)**

COURSE BROCHURE

Master of Business Administration in Information Technology (MBA IT)

The Master of business Administration (MBA) in Information Technology (IT) offered by Cyryx College is designed for individuals who are working in the technology sector for them to elevate their career to executive level. Our MBA will help you to recognize and use opportunities, develop strategies and plan to manage changes and enables you to consider issues in an organization in a wide or total business context.

Furthermore, the specialization option in information technology will help students to prepare them for leadership roles in using the latest technology and innovations in contemporary business organization. This course will also emphasize on developing skills to analyze business and organizational problems. After the completion of this course, students will be able to apply the various concepts and theories they have learnt to make a variety of decisions at the highest level in any organization.

This course will also help students become familiar with the essence of business so that they can aspire to take responsible positions and learn to manage technical and organizational change in today's fast paced world.
